MEMO TO FILE

Re: Erie St. & Lolo Trail - Determination of homes connected to the sanitary sewer in that area.

On February 8, 1990 Randy Lyman requested that Karen Chandler and I go to the area of Lolo Trail and Erie St. and determine which homes are connected to the City sanitary sewer. We found in our files that 3001, 3011, 3021 & 3031 E. Erie are connected to the sanitary sewer in Lolo Trail. Apparently these homes are all connected together by means of a private line and then cross the property at 3000 E. Lolo Trail and connect the sanitary sewer in MH 8, Wye Map Z-15 (See the attached map and TV report). The home at 2943 E. Erie is connected to the sanitary sewer in Lolo Trail (See attached TV report). The home at 2959 E. Erie is not connected to the sanitary sewer (see TV report) and apparently is not in a district.

We checked the following homes on Erie St. and found the following information:

- 2930 E. Erie - Burt Blanton: House is not connected to the sanitary sewer. It has a private septic tank in the back yard. *Paying Sewer Bill*
- 2938 E. Erie - Terry Mackey: This house is connected to the sanitary sewer. They are connected in the front of their house between MH 6 & MH 7, Wye Map Z-15. *Paying Sewer Bill*
- 2942 E. Erie - Daniel Sparrow: This home is connected to the sanitary sewer by means of a private line in front of their home. This line connects to city sewer line between MH 15 & MH 7, Wye Map Z-15. (See attached map) *Paying Sewer Bill*
- 2948 E. Erie - Roger McManmie: This home is connected to the sanitary sewer by means of a private line in front of their home. This line connects with the private house line of 2942 E. Erie and then connects to the city sewer line between MH 15 & MH 7, Wye Map Z-15. (See attached map.) *Paying Sewer Bill*
- 2958 E. Erie - Richard Cavin: Private septic tank.
- 3002 E. Erie - William Wakefield: Private septic tank.
- 3012 E. Erie - David Meier: Private septic tank.
- 3022 E. Erie - Roy Davis: Private septic tank.
- 3032 E. Erie - Claude Tucker: Private septic tank.

3000 E. ERIE

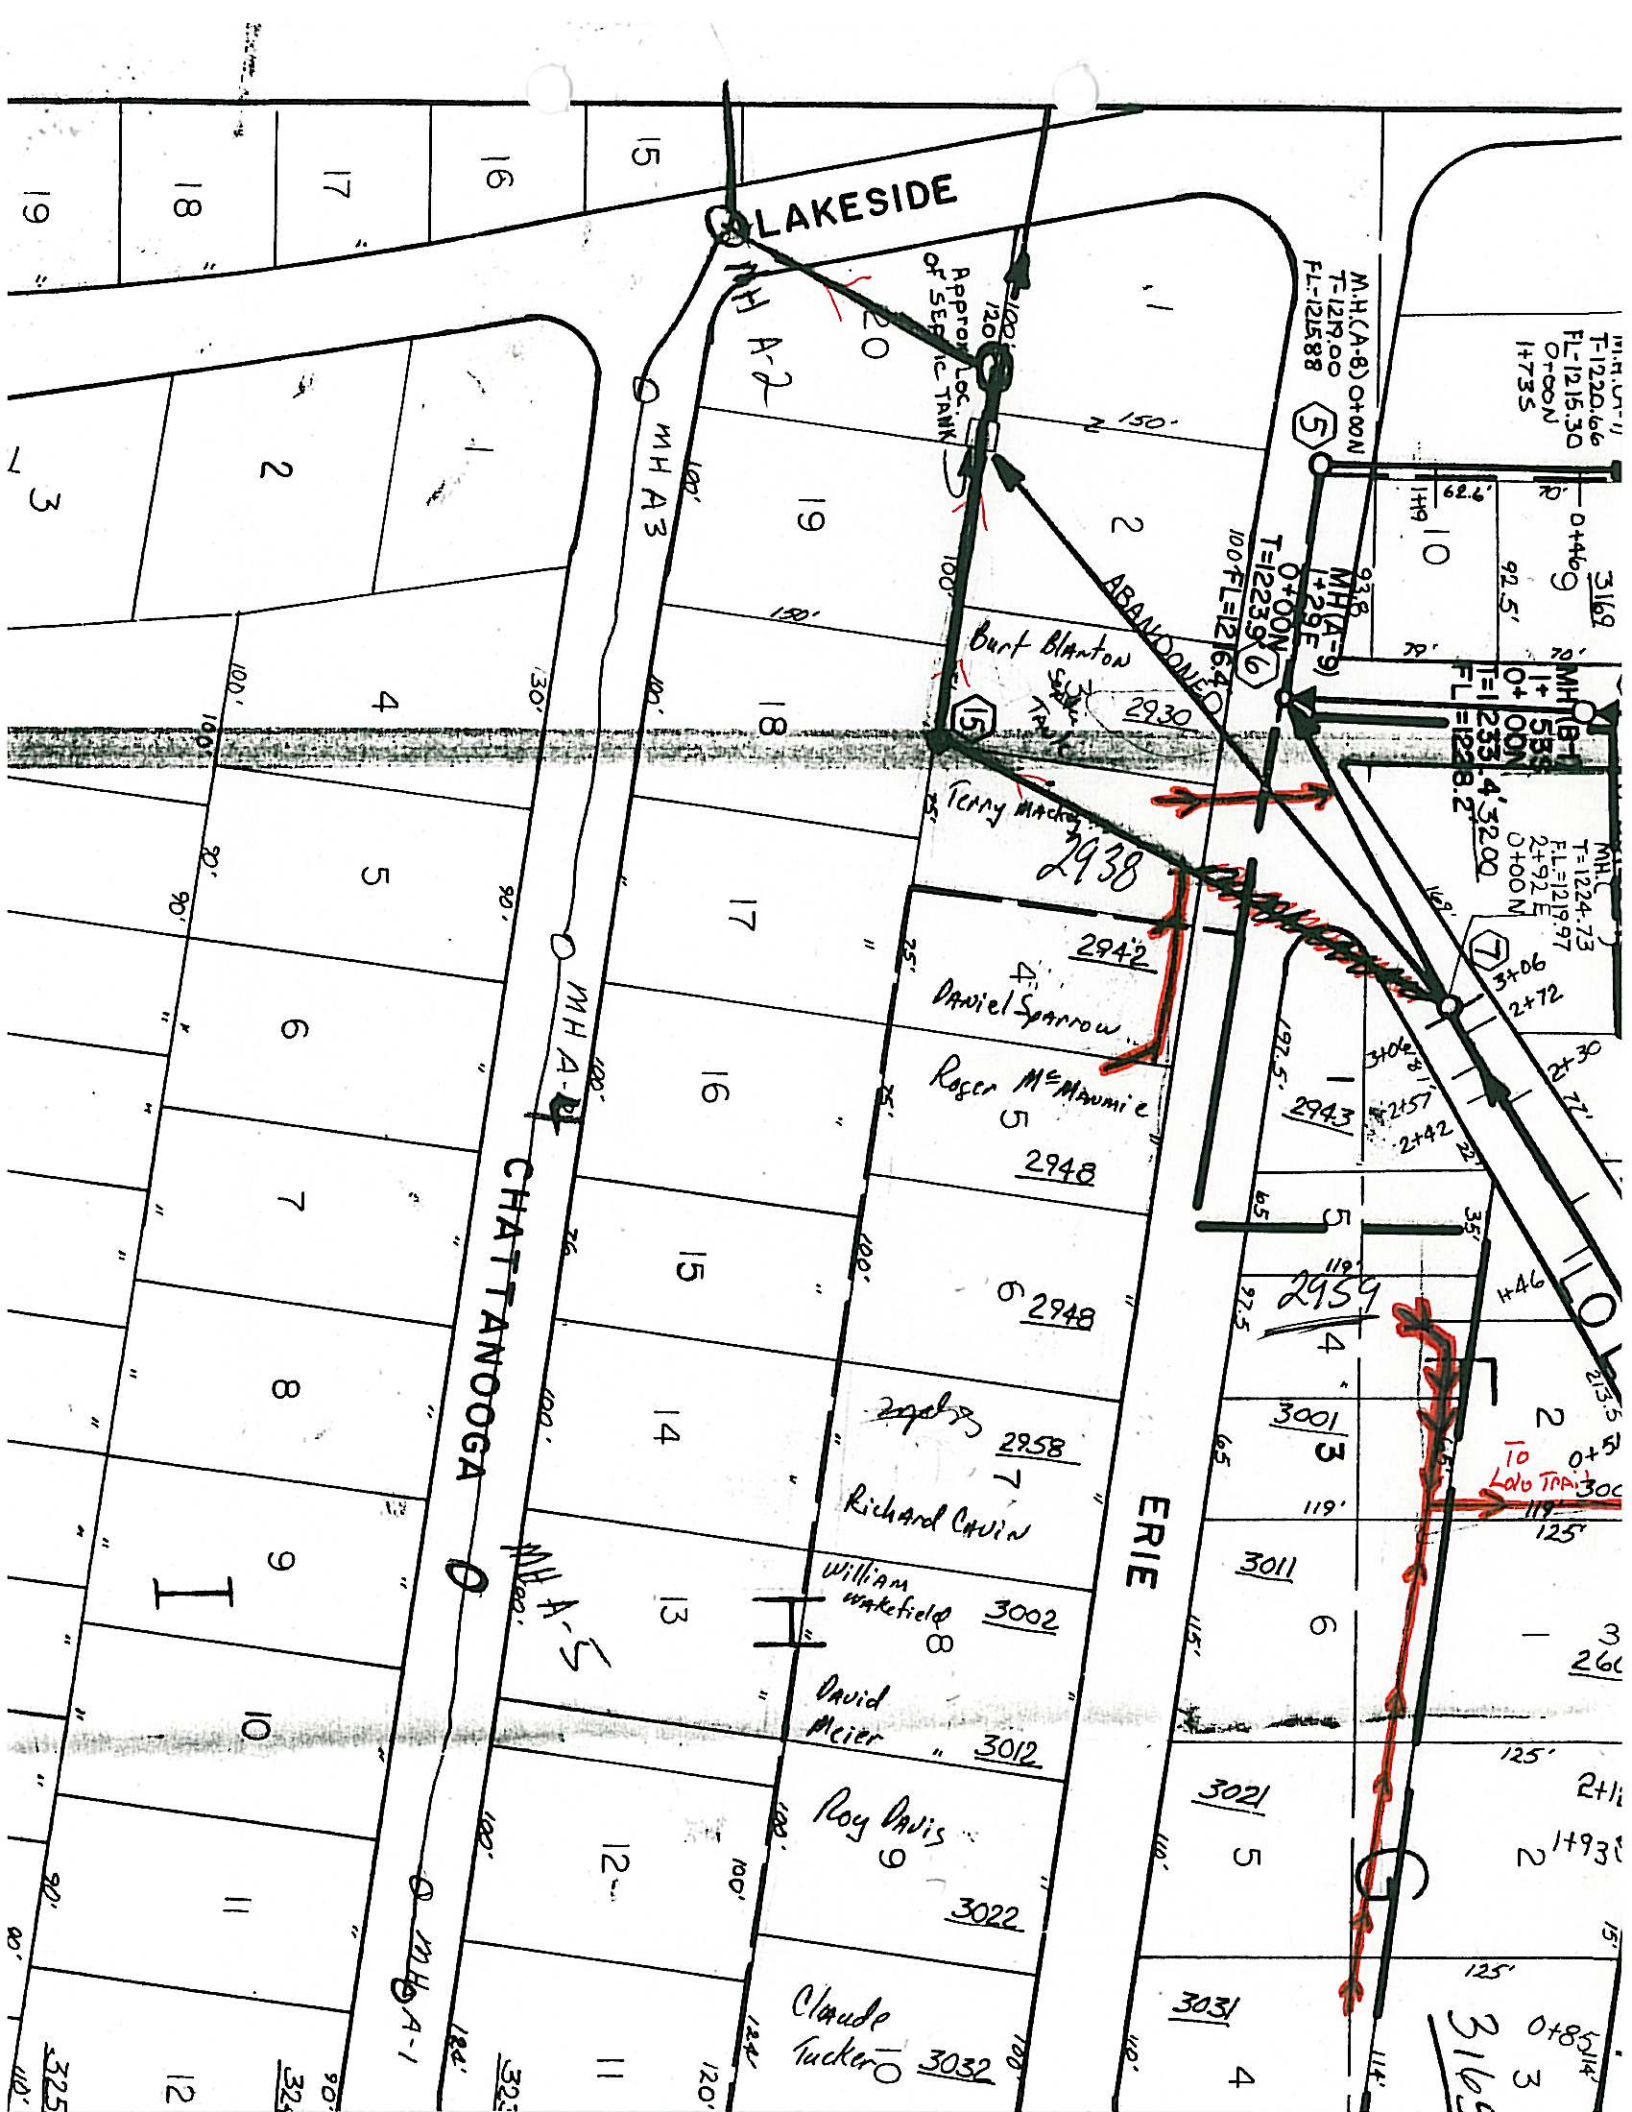

*Paying  
Sewer Bill*

*2959 E. Erie is  
connected to sanitary  
sewer via the private  
line with 3001, 3011,  
3021 & 3031.*

The City sanitary sewer line between MH 15 & MH 7, Wye Map Z-15 has been plugged in MH 7. This line appears to only be active because of 2942 & 2948 E. Erie are connected to it.

NOTICE OF VIOLATION

Ms. Regina A. Issac  
3011 E. Erie  
Springfield, MO 65804

Dear Ms. Issac:

This Department has received a complaint concerning the discharge of sewage onto property at 3000 E. Lolo Trail, Springfield, Missouri.

A representative of this office investigated the complaint and found the sewage coming from a private sewer line which serves your property and the other properties shown below. Since the sewer belongs to you and the other property owners it serves, this Notice is being served upon each of you that the discharge is in violation of the City Code and you are hereby notified to abate or correct the violation within 15 days of receipt of this Notice of Violation.

If you have any questions concerning this matter, or if the City Health Department or Sanitary Services can be of assistance, please contact us at your convenience.

Your cooperation will be appreciated.

For David G. Snider, Director of Public Works.

Sincerely,

*Thomas W. Fare, CPS*
